

CELEBRATION OF SCIENCE DAY

28th February

National Science Day is celebrated in India on 28 February each year to mark the discovery of the Raman Effect by Indian physicist Sir C. V. Raman on 28 February 1928. For his discovery, Sir C.V. Raman was awarded the Nobel Prize in Physics in 1930.

The department of Chemistry, IQAC of the College, Biotech HUB, DBT, Assam Science Society Golaghat Branch, Golaghat celebrated National Science Day on **28th February, 2017** under the focal theme “**Science and Technology for Specially Abled Persons**”. With the spirit of the celebration, a Science Poster Competition, chemistry laboratory demonstration for students of different schools of the district, a formal meeting with an **invited lecture** on were organized.”

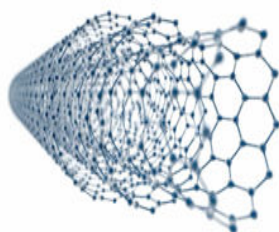

The department of Chemistry celebrated National Science Day on 28th February, 2019 under the focal theme “**Science for the People and the People for Science**”. The purpose of the day is to spread the message of importance of science and its application among the people. This time the department organise an invited talk on a very important topic “**Large-scale production of Carbon Nanostructured Material: A new Avenue**”. The Resource person for the programme was **Dr Binoy Saikia, Sr. Scientist, Material Science & Technology Division, CSIR-NEIST, Jorhat** and Bhatnagar Award winner for Science and Technology 2021.
