

“CHEM DE”

An initiative of the

“Debrajjan Society for Chemistry and Environment”

Editor: Dr. Mridul Chetia, Assistant Professor

About the Journal:

The journal is designed to introduce gamut of Chemistry and its issues from theoretical aspects to application dependent studies to the students of Chemistry and anyone interested in knowing the key aspects of the subject. The journal was envisioned and founded to become a voice of the community of Chemistry addressing researchers and practitioners in diverse areas of the subject. The first edition of “CHEM DE” was released in September 2017. The inaugural volume is intended as a platform for practitioners and researchers to identify and share new issues and ideas and help in shaping the future directions for research in the field of chemistry.
